If not, you're probably spending too much.

You could save thousands or even tens of thousands of dollars per year by taking just one hour to send us a copy of your current bill and review our pricing. Transfer your billing to us as your Microsoft Cloud Service Provider and enjoy these perks:

● Better Pricing   ● Improved Security Microsoft   ● Licensing Optimization

## Case Study: Microsoft Licensing Audit IDs Significant Savings For Networking Solution Provider

### Company Background

The client is a Chicago-based company with approximately 1,300 employees that offers fully integrated network solutions.

### Business Challenge

The client already had a large Office 365 subscription and sought our assistance in identifying the best Microsoft 365 plan for their business and consolidating their licensing to contain costs.

### Stratosphere Networks Solution

The client underwent a comprehensive audit of their Microsoft licensing, including thorough reviews of:

- Endpoint management
- End user accounts and subscriptions (including use cases and security risks)
- Third-party Software as a Service (SaaS) product usage and potential to consolidate by switching to Microsoft Cloud Services

Based on the audit, the client received the following recommendations:

- Move to Microsoft 365 E5, E3 and F3 USLs
- Consolidate endpoint management with System Center Configuration Manager and integrate Mobile Device Management with Intune
- Standardize deployments to Windows 10 Enterprise and upgrade to Microsoft 365 Apps for Enterprise
- Switch from a third-party cloud phone system to the unified communications capabilities included with Microsoft 365 E5 (Microsoft Teams for cloud PBX/unified communications)
- Transition from a third-party endpoint security solution to Microsoft Defender for Endpoint
- Replace third-party anti-virus software with Windows Defender Antivirus
- Switch from a third-party business intelligence solution to Microsoft Power BI
- Review and remediate all identified user account risks
- Switch to Stratosphere Networks as their Microsoft Cloud Services provider for lower pricing

### Benefits

The recommendations that resulted from their Microsoft audit will produce the following business benefits:

- Savings of over \$20,000 per year
- Maximized return on Windows and Office investments

- Improved security due to remediated user account risks and standardized deployments
- Streamlined software deployment and management

Overall, a thorough Microsoft and Office 365 review can lead to not only lower expenditures but also a more secure infrastructure that drives productivity.
